

# Business Photographs

## 6 Million Business Addresses & their Pictures Nationwide!

We don't use trucks to take pictures. We use real photographers.

Instead of using images from video cameras mounted on moving trucks, our photographers walk their routes to get the most accurate, quality business photos.

We take 2 pictures – a wide-angle and a close-up shot. We also capture exact latitude and longitude.

### Use these business address photographs for:

- Insurance Underwriting
- Sales Calls
- Credit Approval
- Due Diligence and Verification
- Navigation

### What does our database include?

Business address, city, state, ZIP, as well as exact latitude and longitude.
